Executive Summary

Mariason Endeavours Limited is a Nigerian-based company delivering strategic, data-driven solutions to clients in the oil & gas, manufacturing, and public sectors. We focus on driving sustainable growth, operational efficiency, and long-term value through deep industry expertise and innovative technologies.

Audited and approved by key regulatory agencies, we have a solid track record in large-scale transformation projects, equipment supply, maintenance services, and high-level advisory. As industries evolve, Mariason remains agile—investing in talent, technology, and operational excellence to help clients succeed and stay competitive.

MISSION

To enable organizations across oil & gas, manufacturing, and the public sector achieve sustainable growth and operational excellence through innovative, tailored solutions delivered with professionalism and integrity.

VISION

To be a trusted strategic partner known for high standards, ethical leadership, and innovation—shaping the future of the industries we serve by continuously improving our people, systems, and delivery capability.

What Makes Us Different ↗

Insight-led delivery

We apply structured thinking and data to improve outcomes.

Execution strength

We are built to deliver under real-world constraints.

Quality + integrity

Strong standards, transparent process, accountable teams.

Client alignment

We tailor solutions to business goals, not generic templates.

Our Values

01.

Integrity

We do the right thing—consistently. We operate with honesty, fairness, and transparency in every relationship.

02.

Excellence

We hold ourselves to high standards. From planning to execution, we pursue quality, precision, and continuous improvement

03.

Collaboration

We work as true partners—with clients and within our teams—sharing knowledge, aligning expectations, and solving problems together.

04.

Innovation

We embrace better ways of working—adapting to new realities, using smarter tools, and improving how outcomes are achieved.

05.

Diversity & Inclusion

We respect and value different perspectives. Diverse thinking strengthens decision-making and fuels stronger performance.

06.

Accountability

We take ownership of results. We commit clearly, execute responsibly, and measure outcomes—because trust is earned through delivery.

Our culture is built around integrity, professionalism, and a deep sense of responsibility—because the industries we serve demand it.

The Mariason Culture

We believe high performance comes from people who are empowered to think clearly, act responsibly, and keep improving. That's why we encourage continuous learning, open communication, and a disciplined approach to problem-solving.

We also prioritize trust—internally and externally. Respect, ethics, and transparency shape how we collaborate, manage projects, and represent our clients. This culture allows us to stay agile, deliver consistently, and remain dependable even in fast-changing environments.

Health, Safety & Environment

Leadership & Accountability

Safety responsibility is shared. Leaders set the pace, enforce standards, and model compliance.

Risk Management

Identifying hazards early, assess risk thoroughly, and implement practical controls via audits and monitoring.

Leadership & Accountability

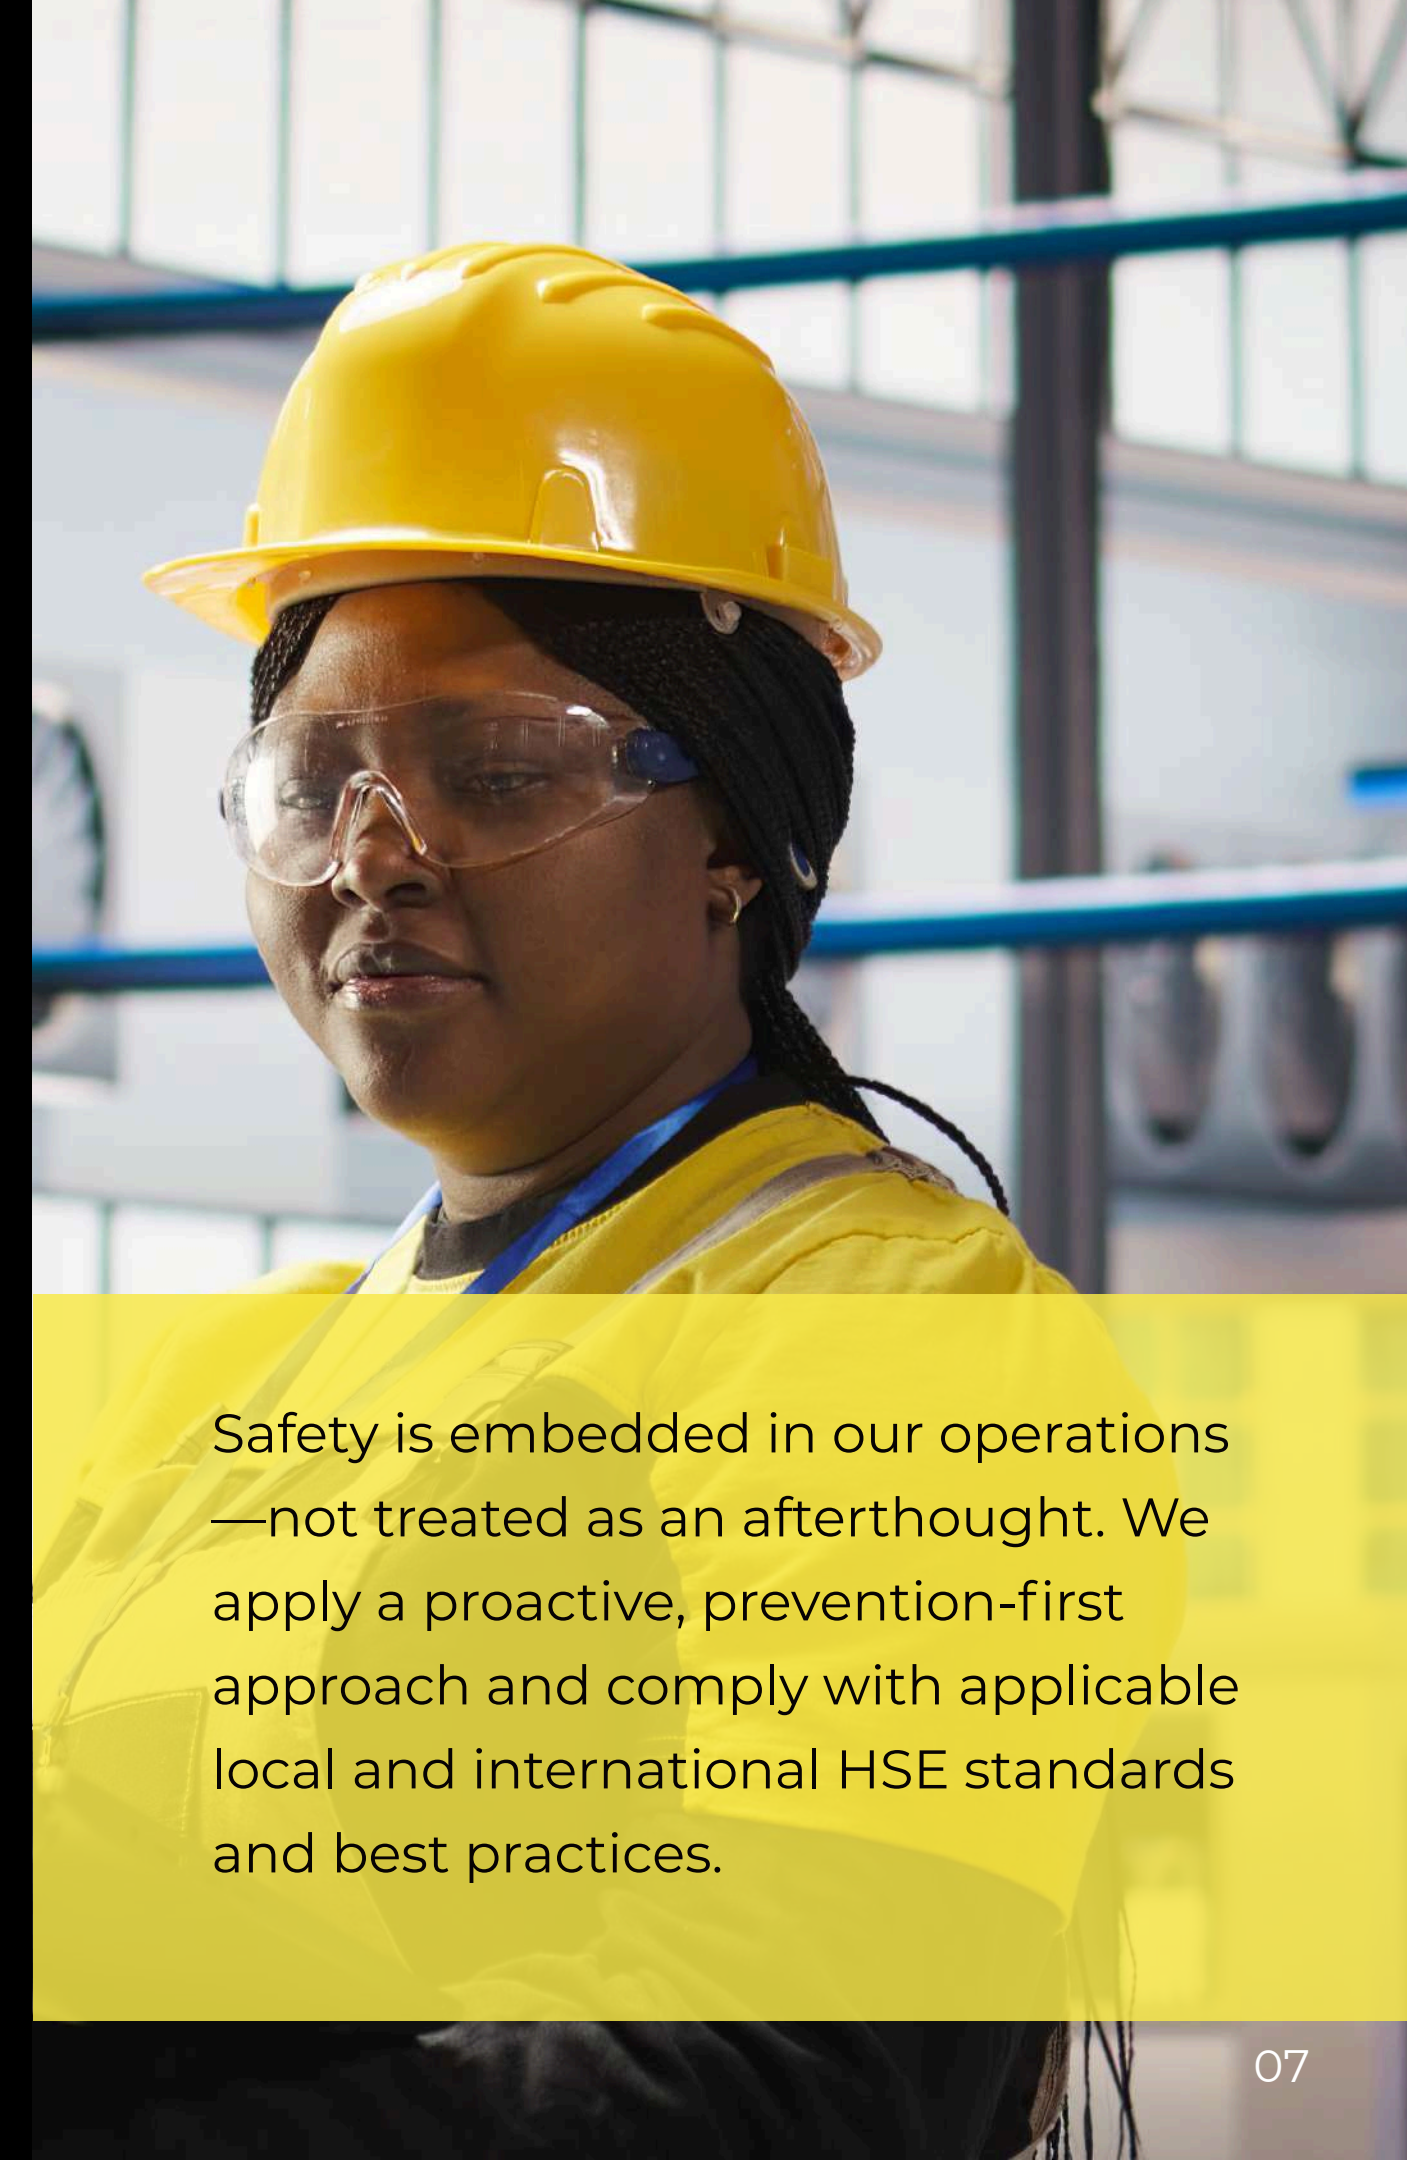

We maintain competency through ongoing training, drills, and certifications that support safe behavior and better decisions.

Training & Competency

Safety responsibility is shared. Leaders set the pace, enforce standards, and model compliance.

Employee Engagement

Safety improves when everyone participates. We promote ownership, communication, and active involvement across teams.

Safety is embedded in our operations —not treated as an afterthought. We apply a proactive, prevention-first approach and comply with applicable local and international HSE standards and best practices.

Our Services

Mariason provides a strong mix of technical supply, industrial support, and consulting services—structured to help clients execute reliably and efficiently.

OCTG

Line Pipes

Rotating Equipment

Valves & Seals

Piping & Fittings

Procurement & Supply Chain

Technical Consultancy

Integrated Construction Solutions

HVAC Services

Specialized Cleaning

OCTG

(Oil Country Tubular Goods)

We supply casing, tubing, drill pipe, connections, and related accessories for a range of drilling and production needs. Through strong relationships with reputable international mills, we support both API and premium-grade specifications—backed by quality control and dependable fulfillment.

Support services include: threading, repairs/re-threading, inspection support, and tubular storage with inventory control.

Line Pipes

We provide line pipes in multiple sizes and grades for gathering systems and pipeline applications—suitable for high-pressure and challenging operating conditions. Our supply options include seamless and welded pipe solutions sourced through recognized global manufacturing partners.

Rotating Equipment

— Pumps

We supply a wide range of pumps that meet recognized international standards, supported by technical guidance for selection and performance requirements.

Pump types include: vertical pumps, horizontal pumps, positive displacement pumps, overhung pumps, between-bearing pumps, vacuum pumps, and specialty pump options.

- Vertical Pumps
- Horizontal Pumps
- Positive Displacement Pumps
- Overhung Pumps
- Between Bearing Pumps
- Vacuum Pumps
- Spate Pumps

Rotating Equipment

— Compressors

We supply a wide range of pumps that meet recognized international standards, supported by technical guidance for selection and performance requirements.

Pump types include: vertical pumps, horizontal pumps, positive displacement pumps, overhung pumps, between-bearing pumps, vacuum pumps, and specialty pump options.

Valves

We offer valve solutions to help achieve extended service life, safe operation and environmental protection. We offer standard or custom-engineered solutions with the configurations you require, engineered to meet specific performance and safety standards.

Our offering includes but is not limited to:

- Ball Valves
- Globe Valves
- Check Valves
- Plug Valves
- Butterfly Valves
- Rotary Control Valves
- Linear Control Valves
- Gate Valves
- Flow line Valves
- Bellow type Globe Valves

Seals

Our OEM partners have over a century experience of design, manufacture and distribution of mechanical seals, sealing systems and parts to customers worldwide. Our portfolio of seals is supported by strong aftermarket services.

Our seal offering includes but is not limited to:

- Mechanical Seals
- Seal Support Systems
- Seal Accessories

Piping & Fittings

We supply a comprehensive range of oil and gas piping systems and fittings designed to support upstream, midstream, and downstream operations across onshore and offshore environments. Our piping solutions are selected to meet demanding operational conditions, including high pressure, high temperature, corrosive media, and continuous service requirements.

- Pipes
- Gaskets
- Flanges
- Elbows
- Tees
- Bends
- Reducers
- Caps
- Sockets
- Fasteners

Procurement & Supply Chain

We supply valve solutions that support safety, longevity, and environmental compliance. Options range from standard selections to customized valve packages that align with operating conditions and safety requirements. Valve options include: ball, globe, check, plug, butterfly, gate, flowline, control valves (linear/rotary), and specialized globe valves.

Technical Consultancy

We supply valve solutions that support safety, longevity, and environmental compliance. Options range from standard selections to customized valve packages that align with operating conditions and safety requirements. Valve options include: ball, globe, check, plug, butterfly, gate, flowline, control valves (linear/rotary), and specialized globe valves.

Our technical consulting includes but is not limited to:

- Resourcing and Manpower
- Engineering Services
- Project Management and Project Control
- Risk Management

Integrated Construction Solutions

Our integrated approach allows us to manage multiple workstreams simultaneously, reducing interface risks, improving timelines, and ensuring consistent quality across all project phases. From civil works and structural construction to mechanical and electrical coordination, we deliver solutions that align with project specifications, safety requirements, and operational objectives.

We work closely with clients, consultants, and subcontractors to ensure efficient resource deployment, strong site governance, and disciplined execution.

HVAC Services

Our HVAC services are designed to deliver reliable, energy-efficient climate control solutions for industrial facilities, commercial buildings, and specialized environments. We support the full HVAC lifecycle, including system design support, equipment supply, installation, testing, commissioning, and maintenance.

Our solutions are tailored to meet operational requirements such as temperature regulation, ventilation, air quality, and system redundancy—while aligning with applicable safety and performance standards.

Specialized Cleaning

Our cleaning solutions are tailored for sites where conventional cleaning methods are insufficient—such as industrial plants, technical facilities, and controlled workspaces. Services are delivered using appropriate tools, trained personnel, and procedures designed to minimize disruption while maintaining high safety and hygiene standards.

From routine maintenance cleaning to targeted deep-cleaning interventions, we help clients maintain compliant, safe, and efficient facilities—supporting both day-to-day operations and long-term asset performance.

Why Choose Us

We are not simply a vendor—we act as a delivery partner focused on outcomes. Our work is built around disciplined execution, reliable supply, and solutions that align to operational realities.

Mariason is positioned to support your success with professionalism and commitment.
